**Subject: Compliance of the Academic Audit for the Academic Session 2023-24**

Respected Sir/Madam,

The Academic Audit of MAIT was held on November 21, 2024. The compliance of the Academic Audit is as follows:

| Sl. No. | Observation                                   | Reply                                                                                                                                                                                                                                                                                                                                                    |
|---------|-----------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1       | Indexing of Journals (at least in UGC care)   | The observation recommends UGC Care journals to be a part of Journal collections in the library. It is important to highlight that our Library currently houses <b>180 journals</b> , out of which <b>47 journals</b> are <b>either indexed in Scopus, Web of Science (WoS), or UGC CARE</b> . We have added <b>20 UGC CARE Journals</b> in recent year. |
| 2       | Industrial trips for students to be organized | The suggestion was duly noted and communicated to all HODs. In compliance, plenty of industrial trips have been organized by different departments to provide practical exposure to students. The records of these visits are maintained and are available in the file for verification.                                                                 |

With due regards,

*Neelam Sharma*
