About MAIT

Maharaja Agrasen Institute of Technology, an ISO 9001:2015 certified Institute, was established in 1999 by Maharaja Agrasen Technical Education Society, promoted by a group of well known Industrialists, Business-men, Professionals and Philanthropists with an aim to promote quality education in the field of Technology and Management. Since then, MAIT has emerged as one of the top technical institutes among the private Institutes with three NBA accredited programmes (CSE, ECE and MAE). The institute began its first batch of 180 B.Tech. Students in 1999 and at present, MAIT offers Bachelor's Degree in 8 disciplines of Engineering – CSE (240 students intake), ECE, EEE, IT and MAE (180 students intake each), ME, CST and ITE (60 students intake each) and MBA (180 students intake). The Institute is approved by All India Council for Technical Education and affiliated to Guru Gobind Singh Indraprastha University, Delhi.

Dear All,

Greetings from Department of Information Technology, MAIT!

Maharaja Agrasen Institute of Technology, an ISO 9001:2015 certified Institute in Delhi, was established in 1999 by Maharaja Agrasen Technical Education Society with an aim to promote quality education in the field of Technology and Management. Since then, MAIT has grown tremendously to emerge as one of the top technical institutes among the private Institutes with three NBA accredited programs (CSE, ECE and MAE). The institute began its first batch of 180 B.Tech. Students in 1999 and at present, MAIT offers Bachelor's Degree in 8 disciplines of Engineering – CSE (240 students intake), ECE, EEE, IT and MAE (180 students intake each), ME, CST and ITE (60 students intake each) and MBA (180 students intake). The Institute is approved by All India Council for Technical Education and affiliated to Guru Gobind Singh Indraprastha University, Delhi.

More details:

Abstract:
The International Webinar on "Digital Infrastructure and corporate" aims at introducing the user with the technological infrastructure used in big corporate. What we study in theory is transformed to unimaginable reality scaled to thousand times for end user to reap the benefit of technology. How this is done and what lies ahead is the theme of the webinar.

 Benefits to Audience:

- The audience (faculty and students) will learn about how corporate employs technology to deliver the product to end user.
- The audience will have a new perspective to view the digital logistics.
- The audience will get information about hardware and software that they may use for their future projects.

Brief Biography of the speakers:

Mridul Mahan Head of Investment Banking Technology, Deutsche Bank	Mridul Mahan is a veteran with over 20 years of experience in the Financial Services Industry. He is currently Head of Investment Banking Technology, working towards building upon the engineering culture DNA and develop next generation future proof stacks. This is strategic to the core of Digital Corporate and Investment Banking going forward. Mridul joined Deutsche Bank in 2016 as Head of Technology for Deutsche Bank in India and then moved on to become Head of API and Open Banking for Corporate Banking. The remit was to build a full stack open banking platform with corporate clients and other banks and launch a fintech internal to Deutsche Bank. Before he joined Deutsche Bank, Mridul was Head – GMSS at Bank of America Merrill Lynch, India where he led the technology Infrastructure team, supporting the Bank across the Asia Pacific Region as well as leading the technology infrastructure footprint of the Bank Pan India.
Siddharth Singh Senior Technical Program Manager at Amazon, Seattle, USA	Siddharth Singh has 17+ years of experience delivering multi-million dollar projects, spreading across E-Commerce, Compliance, AML and Risks, Video Technologies, Healthcare and Space industry. Core functional area includes in Strategic Planning and Execution, Driving technical design and solutions selling strategies, New product development, Execution and launch. Managing Product Road-map. Multiple products from inception to launch. Expert in Agile and waterfall project management methodologies. Worked on transformation projects. Expert Scrum Master, handled up-to 6 global teams simultaneously. Scrum Fundamentals Certified. CSM. Currently working at Amazon, owning multiple Tier-1 services, catering to multi-billion dialogues each week over Amazon's smart speaker technology. Previously, led many high performing teams, up to 25-30 skilled engineers, SDETs, and other multi-domain to manage road map and deliver products to, providing state of art technologies like e-commerce, smart speakers, security and privacy, OTT, VOD, PDL, SDP, IPTV, Pay TV, CA/DRM based solutions, Service Delivery Platforms for IN and OUT of home connectivity. Worked as Scientist in Indian Space research Organization, in mission planning domain. Extensively worked on Mission analysis and planning developing algorithm design for remote sensing. Worked on simulation of abstract world and solutions. Specialization: Program Management and Delivery, E-Commerce, Smart Voice Technology, Compliance, Security and Privacy, AML and Risks, KYC, On boarding, Set Top Box, healthcare Domain, Agile-Waterfall transformation, Space Industry, Mission planning and analysis for remote sensing satellites. Career history in reverse order – Amazon, CISCO, GE Healthcare and ISRO-Satellite Center.
